Area Offices,

To ensure good customer service, please make sure these VPP companies are removed from your programmed inspection lists. Part of the reward for implementing comprehensive safety and health programs and becoming a VPP company is being removed from programmed inspection lists. By ensuring these companies are removed from your lists, it allows for better utilization of your valuable office resources by eliminating unnecessary site visits and eliminates utilization of the companies' valuable resources to explain their VPP status.

If you have any questions regarding the status of the VPP candidates or have any enforcement activity with the companies, please contact Matt Gaines.
